

IN THE SPECIFICATION:

At page 1, please amend paragraph [0001] of the originally filed patent application as follows:

--[0001] This patent application is a 371 application of PCT/US2004/009237, filed on March 24, 2004 (Publication No. WO/2004/08667), which claims priority to U.S. Provisional Patent Application No. 60/457,529, filed on March 24, 2003 which disclosures are herein incorporated by reference in their entirety. This application claims the benefit of U.S. Provisional Patent Application No. 60/457,529, filed Mar. 24, 2003 (Attorney Docket No. 34015.8009US).--

.--

At page 20, please amend paragraph [0082] of the originally filed patent application (which is Paragraph [0120] in the US Patent Application Publication US 2007/0127417) as follows:

--[0124] All of the above patents and applications and other references, including any that may be listed in accompanying filing papers, as well as patent application Ser. No. 10549342, filed Mar. 24, 2004, entitled "Self-Configuring, Self-Optimizing Wireless Local Area Network System" (Attorney Docket No. 34015-8009); U.S. patent application Ser. No. 10/139,609, filed May 2, 2002, entitled "Wireless Base Station To Base Station Synchronization In A Communication System, Such As A System Employing a Short-range Frequency Hopping Or Time Division Duplex Scheme" (issued on March 20, 2007 as IS Patent No. 7194010) (Attorney Docket No. 34015-8003); and application Ser. No. PCT/US03/28840, filed Sep. 12, 2003,

entitled "Network Access Points Using Multiple Devices"  
(PCT publication No. WO 2004/025887 published on March  
25, 2004) as WO{Attorney-Docket No. 34015-8008}, all  
commonly assigned, are incorporated herein by reference.  
Aspects of the invention can be modified, if necessary,  
to employ the systems, functions, and concepts of the  
various references described above to provide yet further  
embodiments of the invention.--
